Supplementary Fig. S1. **A:** Gating of ASCs and B cells and their related subpopulations.
B: Gating of CD8 and CD4 T cells and their related subpopulations.
Arrows indicate hierarchical gating steps.

Supplementary Fig. S2. **A:** Total lymphocyte counts and total counts for T and B cells, CD8 T cells, CD4 T cells and ASCs. Bar charts with mean and individual data points; paired values connected by lines; *p*-values determined by Mann-Whitney U-test or Wilcoxon rank test according to pairing of data. **B:** anti-S1-RBD CoV-2 titres of pSS patients and healthy controls for individual vaccines after second vaccination.
